PREVENTION OF ABANDONMENT

- For these children living in poverty without a safety net it is important to pray for protection against disease, hunger and disaster.
- Pray for our high-school students and the ones graduating 8th grade this year, that we can support them financially for their living fees, that they are able to accommodate and to overcome any barriers regarding their education and development.
- We would also appreciate your prayers for the 6 year olds starting first grade in September it is a challenge for them as some of them haven't been to kindergarten or any other form of education system and some of them don't speak Romanian.
- Our weekly programs and clubs need support in prayer as well, for our staff and volunteers who need patience and love for these children so the spiritual ministry will have more powerful impact in the gypsy community in Ogra.
